

**THE ELK CREEK HIGHLANDS Homeowner's Association**

**Meeting**

**10/3/2014**

Until further notice, as a result of the Equine Vesicular Stomatitis (VSV) virus, the ECHPOA Board of Directors has ruled that no new horses shall be admitted to the ECHPOA boarding facility.

Horses that are currently boarded at the ECHPOA facility which temporarily visit another facility for training or for any other purpose, must obtain documentation from their Veterinarian indicating that their horse is free of the symptoms of Equine Vesicular Stomatitis (VSV).
